1. Introduction

PSPC has standardized symbols and graphics including blocks, line types and hatch patterns for use within various disciplines and types of work.

1.1 PSPC Symbols and Graphics Library

The PSPC Symbols and Graphics Library is a DWG format file that includes the symbols and graphics documented in this document and is available for download via the Download Portal at : <https://idgsi-rpgdi-fme.spac-pspc.gc.ca/fmeserver/apps/downloadportal>.

The document *Annex C: Toolkit for AutoCAD* introduces the PSPC AutoCAD Tool Palettes, which incorporates the contents of the PSPC Symbols and Graphics Library.

1.2 Inquiries

For questions or further information pertaining to this document, please contact the Geomatic Services National Centre of Expertise by email at CADD-CDAO@pwgsc-tpsgc.gc.ca.

For any questions pertaining to the use of the National CADD Standard on a project, please email the regional contact listed in Table 1-1.

2. General

2.1 Detail Callout Symbols

Component	Description
1	Detail identification number
X1	Sheet number where detail callout is located
X2	Sheet number where detail view is drawn

2.2 Elevation Callout Symbols

Components	Description
2	Elevation identification number
X1	Sheet number where elevation callout is located
X2	Sheet number where elevation view is drawn

2.3 Section Callout Symbols

Components	Description
A	Section identification letter
X1	Sheet number where section callout is located
X2	Sheet number where section view is drawn

2.4 Title Callout Symbols for Details, Elevations and Sections

Components	Description
1 or A	Detail and Elevation identification number or section identification letter
X1	Sheet number where detail, elevation or section callout is located
X2	Sheet number where detail, elevation or section view is drawn
